Steve – I have overlapping meetings/briefings between 11:00am and 1:00pm.
Would 9:30 – 10:00 or 1:00 – 1:30 work?

Steve, I just saw something on my calendar that I needed to accept at 10 – 11. How about 11:15 or 12:30 for 15 to 20 minutes ? let me know

Thanks Steve – Liz, Paula and Robin have drafted a preliminary agenda, which I'm reviewing right now. I'll send my comments/suggestions to everyone today, so we can finalize things tomorrow. Regarding the length of the meeting, I asked Liz and Paula to aim for a day-long time period, with the realization that everyone likely would not be available for the entire day.

As is often the case, there are already ancillary meetings creeping into the main site management strategy discussion, one on short-term enforcement strategy regarding Sunnyside's recent activities, and one on near-term contracting needs, so the time is being dissected rapidly.

I have several meetings tomorrow, but 10:00am or 1:00pm would be good times to meet, if you're available.

Thanks,
Steve

Steve,

It would nice to know what the intended meeting scope, agenda and needed duration as planned for Thursday. If you care to discuss this, I am available tomorrow, and I would welcome the opportunity to add my perspective on the meeting content and objective. Apparently, this is also a concern of other members of the team.

As to the proposed length, it would seem reasonable that we limit this to half a day at this time.

Thank you,

Steve
